

## ESSER Planning Community Survey Responses

What are additional needs that you feel should be addresses by the use of ESSER Funds?

Special needs education for teachers or staff
Paras pay raise
I would add PBL training for new teachers. As a fairly new teacher, I do not feel qualified to be leading these student groups. However, it is expected of me. It would be beneficial to myself and my students if I knew what was expected and what exactly we should be doing.
Our ESL students & non tsi compliant students need more support. Use these funds to help them out.
New Phonics Program
I think Roscoe should have an ESL program to help students who are struggling. we have a lot of peoples that it could help.
I think ALL Roscoe students should have a teacher, not a computer program, teaching them.
TSI help
The things listed above I don't understand what they mean or what they are. It might be easier for us to understand if we knew what these things mean and who uses them
No suggestions
I absolutely love everything that RCISD had to offer for my children. I do feel helping out the teachers and Paras would benefit everyone.
Closing achievement gaps between low and high socioeconomic status, Closing English language learner (ELL) achievement gaps
Interventions for Jr. High students in Math and Reading.
(Bus Driver) could be helped by provided her with a bus monitor. She has a full bus.
A better art and computer room.
Books for ECC

The list of allowable items above is not comprehensive. What are some other ways that the ESSER Funds can be used to address the needs that are listed above or any other needs that you have mentioned?

Educate staff on autism, adhd, so that these very smart children can also excel.
new library software
It seems like a comprehensive list. I'm not sure if it is included but teacher training on some of the programs: map, imagine math, imagine learning, eduphoria, etc.
Something more in depth & comprehensive than ICEV.
Teacher training needs
Funds look to be going to several different needs and I think that is great. I would love to see sports to get expanded a little.
We discussed AVID Excel in our meeting, and it is not included in this list. We have ELLs who drop out of our school, and I believe the point of ESSER is to help them catch up in the wake of the pandemic. How are our ELLs performing on STAAR? I think we need some kind of class/ teacher/ program to help in this area.

How would you like to see the funds used?

Education for teachers and staff on special needs, counseling for special needs.

Para pay

As mentioned above.

Help the students that are ESL or non tsi compliant. ESL students need a program & the kids that struggle with tsi need individualized instruction not just computer screen with one person helping. They need content strong staff to be able to provide support. We also need a program to help our ESL students. As of now we have one staff member able to help them out & she is a teacher.

To help with student success at Roscoe

ALL STUDENTS SHOULD HAVE A TEACHER!!! NO STUDENT SHOULD BE SITTING INFRONT OF A COMPUTER LEARNING. IF THERE ARENT ENOUGH TEACHERS.....HIRE MORE! MY KID IS ON A COMPUTER ALL DAY WITHOUT HELP. HE SAYS GOOGLE GIVES HIM ANSWERS. THIS IS NOT FAIR TO ANY KID. ALL KIDS SHOULD BE TAUGHT BY A TEACHER!!!!!!!!!!!!

IT SEEMS LIKE NO ONE CARES ABOUT THE KIDS WHO ARE THE COMPUTER BECAUSE THEY ARENT GOING TO COLLEGE!!!!

Teacher salaries

I am extremely pleased with all the academic opportunities provided for my children to succeed. The only thing I feel Roscoe is missing is athletic advancement. I understand that we focus on academia, which is excellent; I just feel the addition of a soccer or baseball/softball would also benefit the school. I know several great students who have left the school for the soul reason of being able to play these sports. I feel that including these sports would keep these kids in school, encourage better grades (no pass/no play), as well as give them scholarship prospects of they are wanting to continue their education after graduation. We have grown so much in all areas of education and I'm so proud of RCISD. I hope that some day soon we can expand the athletic opportunities for all the plowboys and plowgirls interested.

I know it will take a lot of work, but I would like to see the funds being used for an ELL program and teacher. It does not have to be AVID Excel; that's just the one I am familiar with. Thanks!

If possible, purchasing more novel, or online novels for the students.

I could use a new (bottle fill) in ISS,DAEP, and AEP.

Resources for 4h clubs
