Exciting Updates for Our School District: New Transportation Facility & Renovations to Ag Livestock Facilities – No Increase in Taxes!

Dear RCISD Constituents:

RCISD Board of Trustees are pleased to announce two important developments in our school district that will directly benefit our students and community, at no additional tax burden on taxpayers.

New Transportation Facility

As part of our ongoing commitment to improving our services and enhancing student safety, we are building a new transportation facility. This new space will house our fleet of school buses, providing a safer, more efficient environment for maintenance and storage. The facility will ensure that our buses are in top condition, reducing maintenance costs and increasing the longevity of our vehicles. This, in turn, will directly benefit our students, ensuring reliable and safe transportation of students.

Renovations to Agricultural Livestock Facilities

In addition to the transportation facility, we are also excited to announce extensive renovations to our agricultural livestock facilities. These improvements will allow our students to continue their hands-on learning experiences in the fields of agriculture and animal science. The upgrades will include modernized barns, expanded spaces for livestock, and enhanced equipment, all designed to create a top-tier environment for both education and the future of our agricultural programs.

No Increase in Taxes

Thanks to the careful, thoughtful planning and oversight of our School Board Trustees, we are proud to report that both of these essential projects will be funded without any increase to your tax rate. The Trustees have worked diligently to ensure that these improvements are made possible by utilizing existing resources, capitalizing of revenue streams, maximizing financial investments, and efficiently managing district finances.

Our goal has always been to make wise, responsible decisions that benefit our students while minimizing the burden on taxpayers. These updates to our facilities reflect that commitment. We are confident that both the transportation facility and the agricultural improvements will enhance the educational opportunities available to our students and help prepare them for success in the future. It is through your investment in education that we can provide these opportunities, and we remain committed to ensuring every dollar is spent wisely for the benefit of our children and the long-term sustainability of our district. RCISD greatly appreciates the support of our community.

Gracias,

Guillermo Mancha, Jr., Ed. D.
